⊗ If an item of furniture or an electrical item is broken - do not use it. Please inform one of the support workers or your LO (Charlotte, Jill or Deborah).

⊗ If you see a fire in the house, if you can:

call for help

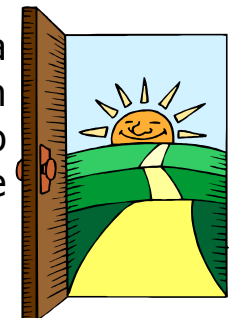

shut any doors as you go and

**LEAVE THE BUILDING STRAIGHT AWAY**

DO NOT STOP to pick up your belongings

⊗ If you are going out on your own, it would be helpful to tell a support worker and to let them know what time you are likely to come home, just so that we know you are OK.

⊗ If you are worried that something in the house feels unsafe, talk to one of the support workers.

⊗ Sometimes, we need to complete a form called a Risk Assessment. This is one of the tools that we use to make sure you are safe. The Risk Assessment looks at all the good things and risks of doing certain activities such as going outside on your own or taking your own medication.

When we complete the form, we will ask you to be involved. It is important to have your opinion. The Risk Assessment will help you to achieve all the things that you want to, safely.
